PROVIDER SIGNATURE

PATIENT AUTHORIZATION

SIGNATURE REQUIRED

I certify that I have voluntarily provided specimen for analytical testing. The information provided on this form and on the specimen container is accurate. I authorize Simple Laboratories to release the results of this testing to the treating physician or facility. I hereby authorize my insurance benefits to be paid directly to Simple Laboratories for services I received. I am also aware that in some circumstances my insurer will send the payment directly to me. I agree to endorse the insurance check and forward it to Simple Laboratories within 30 days of the receipt. Simple Laboratories will make every effort to seek reimbursement from third-party payors and governmental programs if patient would like their insurance billed. In the event my insurance is out of network with Simple Laboratories, and they will not pay Simple Laboratories for the services incurred on this requisition, I agree to pay for these services at Simple Laboratories published patient prices for these services. Failure to do so may result in my account being forwarded to collections and reported to a credit bureau. Simple Laboratories is not in network with Aetna, Cigna, or Humana. I understand that Simple Laboratories may use the specimen and any testing performed on that specimen, for research, development, and potential publication purposes, so long as the information has been property de-identified pursuant to the law. I understand Federal legislation enacted in March 2020 requires comprehensive private health insurance plans to cover this test and provides funds for reimbursement to providers for COVID-19 testing for uninsured patients. By choosing to pay out-of-pocket, I am electing not to seek reimbursement through this mechanism.
